Monty's Team Talk
A Note from our President
Monty Bates

60 years and Counting

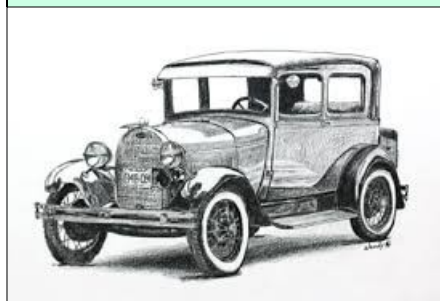

The month of June brings back many fine memories of events of the past...graduating from schools and most importantly the beginning of summer!!!! Let's join together and make 2017 a fantastic time for all of us Model A drivers!! There will several events including the Henry Ford picnic on June 25th. Our 60th anniversary picnic is now scheduled for September 17th with Weeg Thompson heading up the volunteers.

We are all glad to know our friend Mr. Art Wagner is doing much better...he is a walking & talking source of information on Henry's cars and helps all of us learn. The current projects in the "Shop" have been very productive with Jim's slant window Fordor and Steve's Phaeton being restored. Please join us every Saturday morning for coffee & donuts & technical advice/knowledge.

Please don't forget to bring me your cans & bottles each Monday night at Hof's Hut, or at any of our meetings or tours...I cashed in your donations for over \$50.00 last week.

Be safe out there!

Editor's Corner By Dick Wyckoff

Just got word that the HarborLight got a **MARC Award of Excellence for 2016**. It is much appreciated. Thank You!

Just a note on my wife, Jan. . . She has diminished lung capacity due to some heart medicine. She is enrolled in a pulmonary exercise class designed to give her some endurance. Hopefully she will improve somewhat and continue to be active in the club.

A lot of work goes into our annual Safety meeting. A crew of nine worked for a couple hours on the Friday before to get everything ready. The event went well with lots of food and we even checked out 12 cars! Thanks to Cliff and his crew of mechanics for a job well done. Thanks to Ruxella Speights for organizing the food.

Jim's 'Mouse House' Slant-Window Fordor is up and running after 43 years of non-op. A little smoke, a few acorns out the tailpipe, a couple more mouse mummies showed up. What would you expect after so many years in a chicken coupe?

Making steady progress on Steve's Deluxe Phaeton. Cleaning, welding, upgrading, etc. Goin' to be a great ride. . .

Dick

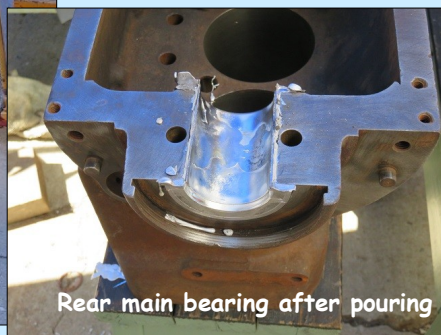

Babbitt Bearing Seminar with Jay Skinner

Jay 'Dr. Babbitt' Skinner presented his second babbitt pouring seminar using a 'B' block this time. He discussed the differences in A and B blocks and improvements such as counterbalanced crank and larger journals. Jay has an extensive and complete K R Wilson babbitt pouring/machining collection.

There were 16 men present for the demo with Model T as well as Model A folks represented. Thanks, Jay. Well done!

Saturday Morning Coffee Gathering

If you are looking for a little tire-kicking adventure on **Saturday** mornings between 7 and 9AM, check out the Caffeine Cruisers at the corner of Artesia Blvd. and Hawthorne, in Torrance, CA. Several of the Harbor Model A club members and other car enthusiasts of all car types meet to talk cars. There are some very nice autos and some nice people there, too! The address is 17400 Hawthorne Blvd., Torrance CA. Come on by, have a cup of Starbucks, and get your weekend started in true So. California style.

Monday Supper at Hof's Hut

We have been meeting for dinner on Monday at Hof's Hut on 237th and Crenshaw for a while now. The food is good and the staff takes good care of us. Come on by and join in the festivities. Time: about 5PM.

"Cruise at the Beach" Friday afternoon at Ruby's Diner

Ruby's Diner 245 N. Harbor Drive in Redondo Beach (by the pier) will host a weekly gathering of fun cars all summer long. This event brings many cars of all types. Classics, Concours, hot rods, antiques, sports cars, motorcycles, and Model As. Many Harbor Club members show their cars and enjoy a great meal in the diner. Check it out. Times are about **3:30 to 7:00 PM every Friday**. There is a nice drawing and trophies are awarded each week.

Parking is free to participating cars.
This event will continue all summer until October 27th, 2017
Hope to see you there.

2017 Membership, Roster and Club Items:

Thanks to **Gloria Younkin** for stepping up and working the club's merchandise effort. We have hats, shirts, patches, t-shirts and we have added 60th anniversary items. More to come.

TINY TIPS

R

SECURING RADIATOR ORNAMENTS

If a quail or other permanent base, flip-top radiator ornament fits loosely or is chipped, it may come off too easily. This procedure will remedy the situation and make the ornament solid - removable only with an Allen wrench. My quail used to fit so loosely that I removed it whenever I left the Ford unattended. Remove the brass lugs on the bottom of your cap. These are usually held on with Allen head screws. See figure A. Cut a piece of metal bar with the same width as the removed lugs. The bar should be about the same thickness as the lugs. The length of the bar should be as long as possible within the diameter of the radiator neck under the flange. Test the cut bar for fit. It should have about 3/16" play on the ends. Drill and tap the bar to accommodate the Allen head screws. See Figure B. Some of the material may have to be removed from the area of the lugs on the cap base. If so, file very carefully and remove only the necessary material for the bar to fit snugly. Notch the radiator neck flange with a small file (or a broken round file chucked in an electric drill) where the new bar will be when the cap is in place. File and fit until this notch is as deep as practical for your cap. See Figure C. With the new locking bar loosely attached, put the cap on and tighten the Allen head screws. As the screws are tightened, the bar will be pulled up into the notches, holding the base firmly. The bar does cover part of the radiator opening, but it doesn't keep you from checking the coolant level nor does it interfere with the overflow tube.

Jim's technical tip for May

by Jim Carnon, MAFCA Technical Director

copyright Frisco illustrationsOf.com/89401

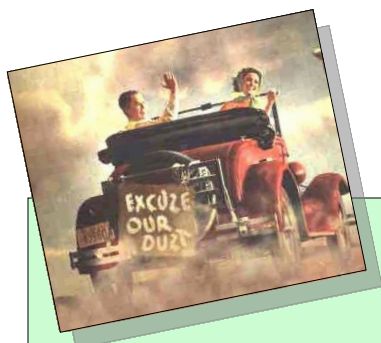

"Most carburetor problems are electrical." In other words, when your Model A starts running poorly and you think you have a carburetor problem, first look at the ignition system. How old is your condenser, how good are your points, is the point gap correct? Are all of the connections between the coil, ignition switch and distributor clean and tight? If you have a wire inside your distributor between the lower plate and the upper plate, what condition is it in? Is the ignition switch making a good connection inside? These things are as common as carburetor problems, if not more so, to cause your engine to run poorly.

Touring with Elaine

By Elaine Pisu, Tour Director

The Weather is Improving. We are on the Go!

Harbor A's are as busy as ever. This past month we had our annual safety check and had a great turnout, great food, great fun and a lot of Model A's. Thanks Pat & Keith for letting us crash your fabulous home once again. Unfortunately it conflicted with the Culver City Car Show so we missed a few of our pals that participated in the car show.

Drain & Doris our super travelers represented the club at **NCRG** in Lodi, CA. Said it was a fun event.

We also had representation at the **Muckenthaler 2017 Motor Car Festival**. Jim Huizdos, Cliff LeFall, Steve & Weeg Thompson, Steve & Mary Ann Friedrich, and Dick Wyckoff drove to Fullerton, participated in the parade to the Muckenthaler Museum and showed their cars at the Concours D'elegance. Reports are a good time was had by all and the entertainment was great.

In June we have 3 events on the schedule. Our first event will be at **Ruby's** in Redondo Beach on **Friday, June 9th at 3:30**. We are hoping to get a good turnout of Model A's. We will hopefully park together and plan on having dinner around 5:00. The raffle is a lot of fun and usually we are done by 7 or 7:30. Hope to see you there.

Once again we will be going to **Little Sisters of the Poor** in San Pedro. On **Saturday, June 17th** we are going to have a car show and take residents of the facility for a ride in our Model As. We will meet at the Walteria club house at **9:00AM and leave at 9:15**. As usual we are invited to stay for lunch. Always a fun time.

We are also planning on attending the **Henry Ford Picnic on Sunday, June 25th** hosted by the Diamond Treads. We will meet at Harbor Freight at **8:45 and leave at 9:00**. If you have not signed up for lunch and need a form please let Tim Harrison or I know. Always a fun day and lots of great raffle prizes.

July 14-16 is our annual pilgrimage to Solvang. This year we are going to participate in the Bent Axles car show in Orcutt on Saturday and joining their Poker run on Sunday July 16th. Let me know if you need a sign-up sheet for the Car Show.

August 20th we are planning on attending the Wounded Warrior Car Show to benefit the Semper Fi fund at the Redondo Beach Performing Arts Center on Manhattan Beach Blvd in Redondo Beach. We will be meeting at the home of Dennis Simpson and caravanning over together. Again if you need a registration form let me know.

Sunday, September 17th— Harbor Area is having it's 60th birthday party at Chevron Park in El Segundo

October 1-6 - MAFCA National Tour in Paso Robles, CA. This tour will go from Paso Robles to San Francisco and across the Golden Gate Bridge. Sounds like a lot of fun.

Ciao! **Mama Pisu**

Vintage Purse Display at the Model A Museum

A new exhibit at the Model A Museum features vintage purses from the early 1900's with special focus on the purses from the Model A Era. These lovely bags were recently donated by Cliff Ladman of West Milton, Ohio in memory of his wife Ruby, who had collected Model A Era fashions over a period of many years.

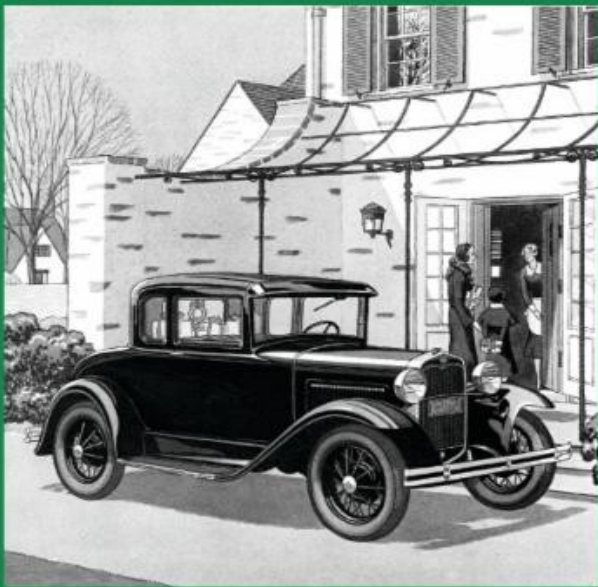

On September 16, 2017 during Model A Day at the Museum. Judith Coebly will be presenting a seminar entitled "Vintage in Style: From Pouch to Purse". Her extensive display of purses from 1700 to mid 1930's will be on display for you to view. Accompanying her power point presentation, you will receive 4 handouts: (1) History of the Handbag: From Pouch to Purse Timeline, (2) Definitions Helping Us Understand the History of the Handbag, (3) Victorian "Language of the Flowers" on Beaded Purses and Important Firsts used in Dating Handbags and (4). Bibliography.

Please come to the museum and see our new purse display and other beautiful fashion items that are on display. Make a point to visit us during Model A Day, September 16, 2017 and take in the seminar as well. Our museum has something for *everyone* who loves the Model A!

Model A Ford Club of America

MAFCA Announces

**A New Book Specifically
For The Model A Ford**

With over 50 years of *The Restorer* magazine articles and more than 180 pages, this book is full of information specifically chosen for the Model A Coupe. In addition to the many great articles from *The Restorer*, there are over 30 pages of material never published in *The Restorer* by well-known author Les Andrews. Every owner of a Model A Ford should include this book in their library, especially if you own a coupe.

Some Pictures from the Safety Seminar/Meeting

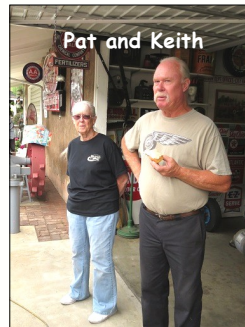

47 members of Harbor As met at Pat Tucker's garage for our annual Safety meeting. At the event, several things are going on at the same time. The guys are busy checking over member's cars for any safety issues, while the gals are busy chatting among themselves while putting together a potluck lunch feast. This has been an annual event for quite a while and is one of the highlight fun events of the season.

Cliff LeFall and his team checked 12 cars for safety related items. Working lights, seatbelts, fire extinguisher, windshield wipers, steering play, brake operation, tires, etc. All the cars did well with a couple that needed some work but are still drivable.

The potluck luncheon /meeting was fun and there was plenty of food for everyone. We even had a couple birthdays to celebrate including our hostess, Pat Tucker.

Pictures show what an awesome signage and car/motorcycle/midget collection Pat and son, Keith, have. This is a result of probably 50 years of collecting. Thanks for sharing it with us!

A Fun Morning at Al's Garage

Below is an Email from Dennis Simpson when I asked him about starting Jim Huizdos' engine. . . .

Hey Dick. Sorry so late getting back to you.

Monty, Jack, Jim, Tim and I met at Al's Garage at ~9am Tuesday morning.

Yes, Monty and Jim installed the radiator and hoses. But no coolant in it yet. Plan was to just fire it off and not stay too long. Monty and Jack had wifely duties and Tim had asked me to help him with his radiator for the Woody.

On Saturday we couldn't get any spark. Cliff changed out the points and condenser but still no spark. We pulled the distributor back out because we were not getting power to the points but had power to the lead from the switch to the distributor. We found we couldn't screw the wire into the distributor body far enough to make contact with the lower plate. Jack took the distributor home and re-tapped the threads so we could screw the wire in all the way. Once all of us were satisfied we had power to the points, as reinforced by the big, fat, blue spark that came out of the coil when the distributor was "accidentally grounded". After Jack reinstalled the distributor I retimed it. We then fired it off with starter fluid. It started right up. A bunch of berries or nuts flew out of the tail pipe...

Next we decided to add gas to the tank to allow it to run a little longer. The tank looks really clean inside. But it had no flow out of the tank. We pulled the fuel line to the carburetor which was plugged and cleaned it out. Still no flow. Pulled the shut off valve and cleaned it out. Tried to start the engine but now no fuel flow to the carb again. I pulled the plug on the bottom of the carb. Dry as a bone. I thought the float was stuck so I pulled the carb, pulled the float bowl off and blew thru the needle valve. Reinstalled the carb. Still no flow!!

Jim then pulled the fuel filter apart and we found that the paper filter element was incorrect and was blocking the outlet. Re-assemble the glass bowl without the filter and all was good.

Jim hit the starter and she fired right up! Lots of smoke!! I don't know if you can see it in the video. There were smiles all around.

The engine sounds really good and has no unusual noises. We shut it down as it was starting to warm up (and Monty reminding me there was no coolant in the radiator). It was now early afternoon (and I think we were gassing Al out!) so we called it a day.

Besides we wanted to save some fun for another day at Al's Garage.

Then we were off to help Tim lift in his radiator. Hope this cures his overheating. The Radiator shop said the radiator was 30% plugged.

All in all, a good day,
Dennis

The Harbor Area A's meet monthly on the last Friday of every month at the Walteria Park Clubhouse, located at 3855 W. 242nd St. in Torrance, California. Meetings begin at 7:30 PM (The park is located about 1-1/2 blocks west of Hawthorne Blvd. and one block south of Pacific Coast Hwy.) We'd like to invite all interested parties, even if they don't own a Model A Ford, to come and join us. Our goal is to educate the public about Model A Fords and have fun while doing it.
