Tim's Team Talk
A Note from our President
Tim Harrison

A View From the Slow Lane

While sitting on Santa's lap at our annual cookie exchange I was asked whether I had been naughty or nice and told Santa the year had been filled with nothing but nice. Santa asked, "What was so nice?" and I said, "Let me tell you."

- *Safety check at the Simpson's
- *Pancake breakfast in Orange put on by Orange County Model A Club
- *Henry Ford Picnic at Heritage Park in Santa Fe Springs
- *Saturday's at Al's garage
- *Muckenthaler Tour in Fullerton
- *Nethercut Museum in Sylmar
- *Monday night dinners at Hof's Hut
- *Dine n' drive in Solvang (and all the fun activities that go with that)
- *Wounded Warrior's Car Show
- *Ruby's Diner on Friday nights in Redondo Beach
- *Annual Picnic in the park with bingo and Hubley races
- *Christmas parades in Wilmington and El Segundo
- *Progressive with a tour of Richard Tupper's Car museum and shop
- *Monthly Club and Board of Director Meetings
- *Opportunity drawings
- *Attending CCRG and NCRG conventions
- *Newsletter with interesting, informative and fun articles and pictures
- *MARC & MAFCA magazines (Pat finds the fashion the most interesting)

I'm sure I've left a few out but the sugarplum fairies are dancing around in my head since it is the most wonderful time of the year (plus my wife has more chores for me to complete). Santa then said to me, "Sounds like you have been very good so no thumb for you. . . Only the present of driving safely in the slow lane."

Tim Harrison, President

January Anniversaries

Editor's Corner By Dick Wyckoff

The So. Cal Christmas season is here. The temperature this morning was 51 deg. I had to put a sweater on! Seriously, I hope everyone is enjoying the season and wish all a great holiday and a healthy and prosperous New Year.

The Harbor Club participated in the Holiday parades in the area. Wilmington and El Segundo had parades the same day, so we had reps in both parades. Happens every year.

This is a good time to check on the health of your Model As. Take some time to lube the moving parts that don't get much attention. I wrote a little article about it in the tech section.

Al's Garage was busy this last Saturday. Gary Kuhlmann brought his '28 Phaeton to the workshop. Bad head gasket. We got it disassembled and Gary is going to do some cleanup work before reassembly. Should be a fun car to go touring in.

Again, have a wonderful holiday and a great New Year. . . .

Dick

Monday Supper at Hof's Hut

We have been meeting for dinner on Mondays at Hof's Hut on 237th and Crenshaw for a while now. The food is good and the staff takes good care of us. Come on by and join in the festivities. Time: about 4:30 PM.

Technical Talk

Overlooked Model A Lube Points

By Dick Wyckoff

Like most Model A drivers, I try to lube all the fittings specified in the lube charts at the appropriate interval. However, there are several others locations that are not mentioned that I think should be visited on occasion. I have listed 12 but there are probably more depending on the body style you own, truck, sedan, convertible, etc. I use 3-in-1 oil because it is convenient, but any oil would probably work fine.

- *Leading the list are the hood hinges. There are three rods inside the formed sheet metal hinges that rarely get any attention. It takes some effort to get to the openings in the hinges from the underside. You have to come from left and right sides to get all the openings.
- *While we are working on the hood, how about a couple drops of oil in the hood latches. They are exposed to the weather and rarely if ever get any attention.
- *While under the hood, a drop of oil in the spring-loaded ends of the spark and throttle rods. They wear too.
- *Moving to the vehicle cab, there are some forgotten locations there too. One that comes to mind is the bushing where the throttle control rod and the spark control rod go down the steering column just behind the steering wheel. On the '28-'29, the bushing is very easy to locate. It is slightly hidden on the '30-'31. Just a drop of oil there and you will be surprised how easily the control rods move.
- *Simple locations while in the cab are the door hinges and door latches. Perhaps a little oil on the door stop wouldn't hurt either.
- *Also in the cab, a little graphite lube in the ignition key might make things work easier. No oil here.
- *While I don't have a seat adjustment on my cars, I think some lube (your choice) on the screw mechanism and the track would be in order.
- *The upper windshield hinge is tough to get at. Perhaps WD-40 or a silicone spray lube could work.
We have to get under the car for a couple more lube locations.
- *Clutch linkage needs to be lubed. A couple drops where necessary will do.
- *How about the emergency brake mechanism? We have the linkage itself and the pawl mechanism, both need a drop or two.
- *Probably one of the most used pivot points that never get attention are the clevis pins at the end of the brake rods. They get used every time we use the brake. A drop of heavier, engine oil would work well here.
- *The last on my list is the seldom used trunk or rumble hinge. A drop wouldn't hurt.
- *Not mentioned is the window crank mechanism. That would require removal of door panels thus not easily accessible.

Touring with Elaine By Elaine Pisu, Tour Director

Looking Back and Looking Ahead

What a great way to end 2018! We had a good turnout at Stonefire Grill last Friday night. 32 of our best Model A friends enjoyed a fun time. Lots of great food. Right after supper, we all ended up at the Pisu residence for our traditional 'Cookie exchange'. Lots of homemade and store bought goodies to enjoy.

Santa made a surprise visit to get the gang in the holiday spirit. Lots of pictures and laughs were enjoyed by all. Thanks, Santa. I understand you visited another event after ours. I guess it is that time of year to spread the holiday cheer.

Looking ahead to next year, our annual banquet will be held at the Bluewater Grill on Saturday, January 26th. Recognition for jobs well done and the new Board is officially on board.

Sunday, March 24th is the Orange County Pancake Breakfast. About 250 Model As show up with a few other treasures on display also. Add the date to your calendar.

For those that take in the Regional Meets, March 29-31 is the CCRG in Merced and two months later on March 27-30, we have the NCRG in Santa Rosa.

Weeg is already looking into entertainment for our Solvang 'Drive 'n Dine' to Solvang July 12-14. It is a fun weekend touring, eating, shopping, eating, visiting, eating, etc. I hope the fires this last year didn't destroy the beautiful countryside.

So you can see, we are lining up some fun events for 2019. Get those Model A ready to roll.

MAFFI Newsletter Minute December 2018

This past Model A Day, we were fortunate enough to acquire Tim Kelly's Town Car and Town Car Delivery collection for a stellar display at your world class museum. The Board of Directors and trustees were sad to see the cars loaded up for their journey back to Connecticut at the festivities end. If only we had a Town Car of our own to display. As fate would have it, our President, John Begg, was introduced that day to Mr. Pete Walstrom of Washington who was in attendance to see Mr. Kelly's collection. It turned out that Pete owned a 1929 Town Car, and had thought of loaning it to The Foundation. He had restored it himself and wanted his efforts recognized and enjoyed by people from all over the country. The two men spoke a few more times over the weekend, and ultimately a deal was struck to ship the car from Washington to The Gilmore for display. It is a stunning car and has taken its rightful place as the focal point in the showroom entrance as the classiest model offered by Ford for 1929. A portrait of Henry himself hangs above the car with a look of approval on his face. Plan a visit to your museum soon, and see this amazing Model A in person.
